

Math Solutions for California Teachers and Administrators

Course Description

This specially designed course for California teachers presents practical and proven strategies for implementing standards-based math instruction. Grade-level sessions customized based on California standards will help you focus on the skills and concepts appropriate for meeting the needs of all your students. Additionally, coaches and administrators will have specially designed leadership sessions to specifically focus on your instructional leadership role at your school.

Through hands-on experiences at each course, you will:

- Make problem solving and critical thinking the primary goal of instruction.
- Implement standards-based lessons for teaching mathematics.
- Organize the classroom for whole-class, small-group, and individual learning.

Teachers will leave this course with a deeper understanding of the math you teach, as well as a wealth of strategies and activities to use with your students.
